My Way

Choose to go further

Executive Summary – A leading key talent development programme for over a decade

My Way is a year-long sequence of learning experiences designed to make a significant difference to our key talent staff as they make the step up to leadership.

The programme is an optimal blend of:

- developing self-awareness using 360° tools, shadow coaching and executive coaching.
- fostering virtual and in-person learning in teams of 6 and cohorts of 36.
- using innovative approaches to using the digital and face-to-face elements.

Created in 2005, already 1,850 alumni are making a positive and sustained impact across the PricewaterhouseCoopers (PwC) Region known as EMEA (Europe, Middle East, and Africa). They act as role models, multipliers, and change agents across the network.

Participants are a strongly connected network in and of themselves, bringing our values and purpose to life and helping us achieve our strategy as the world, our business, and that of our clients face unprecedented levels of disruption.

Built to last and built to adapt, this visionary programme is co-created in a unique partnership between the My Way team and the territory owners – the My Way champions.
